

Cycle For MS

Conquer the Tour

23-26 June, 2027

CYCLE THE TOUR DE FRANCE MOUNTAINS

400KM | 5-25% Climbs | 10,000m Elevation

Cycle for MS: Conquer the Tour is a charity cycling challenge that offers participants the incredible opportunity to ride some of the 2027 Tour de France mountains weeks before the professionals. Over four days, riders cover up to 400km, tackling some of the Tour's most iconic and demanding mountain climbs while testing their endurance alongside a community united by a common cause, multiple sclerosis (MS).

With training and fundraising support provided throughout the journey, Cycle for MS offers a unique chance to experience the Tour de France from a rider's perspective whilst raising vital funds to improve the quality of life and wellbeing of people affected by MS.

“An unforgettable experience” - Hermine
